Assignment: For assignment #5, you will create a Works Cited reference page on topics related to your chosen major and submit it via Blackboard. You are required to include at least five sources and properly cite them utilizing MLA formatting. Two of the citations must be from scholarly journals; you may also use books as well as websites if they are reputable. Utilize the following handouts to help you complete this assignment. The Works Cited reference page must be typed on a separate Word document and submitted via Blackboard by the due date listed in Blackboard and the UNIV syllabus. Worth 50 points.

Topic example:
Secondary Education, classroom management

What YOU NEED TO DO
• Use the AUM Library databases to search for articles on this topic. You will use the AUM Library catalog to find books.

ANSWER THESE QUESTIONS
• How many useful/relevant articles did you find? __________
• How many are from scholarly journals? __________

Identify a few articles to examine more closely:
• Who wrote these articles (scholars/researchers with related graduate degrees, journalists, no background info available, etc)?

• Is the information current or outdated (why is that important)?

• Who is expected to read them (general population, scholars, people in a certain trade, etc)?

• Why was it written (do the authors have an agenda)?
MLA Works Cited page has the following qualities:
- Has the title “Works Cited” in the center of the page
- Entire document is double-spaced
- Margins are 1 inch on all sides
- Each entry has a hanging indent
- Organized in alphabetical order

Below you will find basic formats and example citations for different types of sources.

**An Article in a Scholarly Journal**

A scholarly journal can be thought of as a container, as are collections of short stories or poems, a television series, or even a website. A container can be thought of as anything that is a part of a larger body of works. In this case, cite the author and title of article as you normally would. Then, put the title of the journal in italics. Include the volume number (“vol.”) and issue number (“no.”) when possible, separated by commas. Finally, add the year and page numbers.

Author(s). "Title of Article." *Title of Journal*, Volume, Issue, Year, pages.

**Example:**

**Basic Book Format**

The author’s name or a book with a single author's name appears in last name, first name format. The basic form for a book citation is:

Last Name, First Name. *Title of Book*. Publisher, Publication Date.

**Example: Book with One Author**

Example: Book with More Than One Author

When a book has multiple authors, order the authors in the same way they are presented in the book. The first given name appears in last name, first name format; subsequent author names appear in first name last name format.

If there are three or more authors, list only the first author followed by the phrase et al. (Latin for "and others") in place of the subsequent authors' names. (Note that there is a period after “al” in “et al.” Also note that there is never a period after the “et” in “et al.”).

Example: A Page on a Web Site

For an individual page on a Web site, list the author or alias if known, followed by the information covered above for entire Web sites. If the publisher is the same as the website name, only list it once.

On the next page is the information for the sources you will cite for your practice Works Cited page. As you write your own Works Cited page, remember to pay attention to detail!
